Chapter 1

Introduction

1.1 Packing List

Product Name	Package
RB-110	RoBoard RB-110
 A photograph of the RoBoard RB-110, a green printed circuit board (PCB) populated with various electronic components. The central component is a Texas Instruments DM8168 Vortex86DX microprocessor. Other visible components include a circular battery, several integrated circuits, and various connectors along the edges of the board.	
Cable-RB-110	Power connector cable x 2 COM port cable x 4 (4 Pin) COM port cable x 1 (10 Pin) I ² C cable x 1 LAN cable x 1 2x5 pin Cable x 1
 A photograph showing a collection of various cables included in the packing list. There are two power connector cables, four 4-pin COM port cables, one 10-pin COM port cable, one I ² C cable, one LAN cable, and one 2x5 pin cable. The cables are laid out on a light-colored surface, showing their different colors and connector types.	

1.2 Product Description

The RoBoard is the heart of any robotic system making your hobby more active and intelligent. It does not just offer control but is a complete computer system based on the Vortex86DX CPU, a 32bit x86 CPU running at 1000MHz with 256MB RAM.

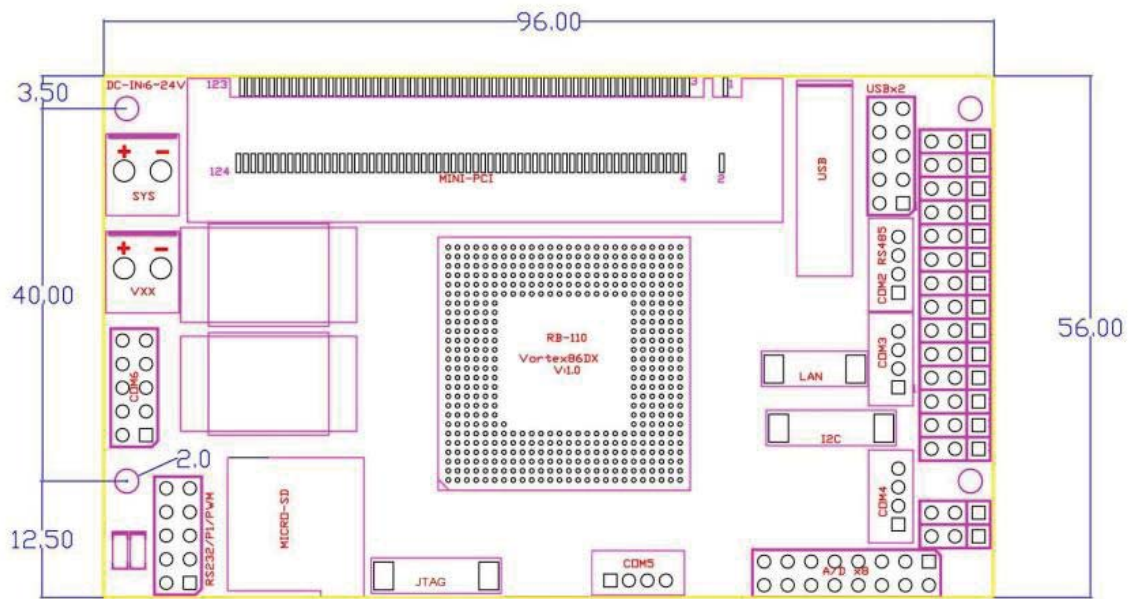

The RoBoard allows users to install a Windows or Linux Operating System onto a bootable Micro-SD card offering engineers a common storage media to develop with. The RoHS compliant CPU board measures just 96mm x 50mm and accepts a voltage input range from 6V-24V DC whilst providing extremely low power consumption.

RoBoard has the rich I/O interfaces to the servo, DC motors, sensors, gyroscope, accelerometers and other devices. Also, it has build-in the PWM 16 Ch, Hi-Speed serial, TTL serial, RS-485, USB V2.0 x 3, A/D converter, I²C bus, 10/100M LAN and Mini PCI socket.

1.3 Specifications

	RB-110
CPU	DM&P Vortex86DX- 1000MHz
BIOS	AMI BIOS
Memory	256MB DDR2 onboard
ADCs	● Analog Devices AD-7918 10-bit
Hi-Speed UART	● FTDI FT2232HL Hi-Speed UART
I /O Interface	● Micro SD slot × 1 ● USB port × 1 (USB 2.0 version)
Connectors	<ul style="list-style-type: none"> ● 2.54 mm 3-pin box header for PWM × 16 ● 2.54 mm 10-pin box header for RS-232 × 1 ● 2.54 mm 10 pin box header for Hi-speed (COM6) × 1 ● 2.0 mm 4 pin header for High speed (COM5) × 1 ● 2.0 mm 4-pin header for RS-485 × 1 ● 2.0 mm 4-pin header for TTL serial × 2 ● 1.25mm 6-pin wafer for I2C × 1 ● 2.54 mm 16-pin header for A/D × 1 ● 2.54 mm 10-pin box header for USB × 1 ● 1.25 mm 4-pin wafer for LAN × 1 ● 1.25mm 6-pin wafer for JTAG × 1 ● 0.8mm 124-Pin Mini PCI Card connector ● 3.96 mm 2 pin for Power × 2
Resolution	PWM : 20ns Serial : 115200bps/750Kbps (COM 1, 2, 3 & 4) High Speed Serial : Up to 12Mbps (COM5 & COM6) I ² C : 1Kbps ~ 3.3Mbps
Power Consumption	+5V @ 400mA
Power Input	DC-in 6V to 24V
Dimension	96mm × 56mm
Weight	40g

1.4 Board Dimension

2.3 Connectors & Jumpers Summary

Summary Table

	Description	Type of Connections	Pin
J01	Micro-SD Slot	Micro-SD slot	13-pin
J02	COM3 TTL	Box Header, 2.0mm , 4x1	4-pin
J03	USB	USB 90 Deg	4-pin
J04	USB x 2	Pin Header, 2,54mm, 5x2	10-Pin
J05	LAN	Wafer, 1.25mm, 4x1	4-pin
J06	JTAG	Wafer, 2.54mm, 6x1	6-pin
J07	COM1	Pin Header, 2.54mm, 5x2	10-pin
J08	RS-485	Box Header, 2.0mm , 4x1	4-pin
J11	COM 5 Hi-Speed (FTDI Port 1)	Box Header, 2.0mm , 4x1	4-pin
J12	Power Connector (System)	Pin Header, 3.96mm	2-pin
J13	Mini PCI Socket	Mini PCI Type III	124-pin
J16	COM4 TTL	Box Header,2.0mm , 4x1	4-pin
J17	PWM initial pull up/down switch	DIP switch	
J18	I ² C	Wafer, 1.25mm, 6x1	6-pin
J19	Power Connector (Servo)	Pin Header, 3.96mm	2-pin
J20	A/D 8Ch	Box Header, 2.54mm, 8x2	16-pin
J22	COM 6 Hi-Speed (FTDI Port 2)	Pin Header, 2.54mm, 5x2	10-pin

2.4 Pin Assignments

PWM

Pin #	Signal Name	Pin #	Signal Name	Pin #	Signal Name

Pin #	Signal Name	Pin #	Signal Name
1	DCD6	2	RXD6
3	TXD6	4	DTR6
5	GND	6	DSR6
7	RTS6	8	CTS6
9	RI6	10	TXDEN6

2.5 Watchdog Timer

There are two watchdog timers in Vortex86DX CPU. One is compatible with M6117D watchdog timer and the other is new. The M6117D compatible watchdog timer is called WDT0 and new one is called WDT1.

We also provide DOS, Linux and WinCE example for your reference. For more technical support, please visit:

Chapter 3

Driver Installation

VGA

The Vortex86DX processor also uses the external Display chip “Volari™ Z9s”, which is an ultra low powered graphics chipset with total power consumption at around 1-1.5 W. It is capable in providing VGA display output up to 1600x1200. With DVO interface, developers could easily connect flat Panel to support TFT and LVDS output.

LAN

The Vortex86DX processor also integrates 10/100Mbps Ethernet controller that supports both 10/100BASE-T and allows direct connection to your 10/100Mbps Ethernet based Local Area Network for full interaction with local servers, wide area networks such as the Internet.

FTDI UART

The RB-110 also uses the external UART chip “FTDI 2232H”, which is FTDI’s 5th generation of USB to UART/FIFO IC. It has the capability of being configured in a variety of industry standard serial or parallel interfaces (RS232, SPI, I²C, JTAG). Its RS232/RS422/RS485 UART transfer data rate is up to 12Mbaud.

The RB-110 provides the VGA and LAN drivers for Windows XP, Windows CE 5.0 and Windows Embedded CE 6.0R2 and Windows Embedded Standard (XPe). Please get from official website: <http://www.roboard.com>

The RB-110 also supports most of the popular Linux distributions, for more detail information, please visit DMP official website: <http://www.dmp.com.tw/tech/vortex86dx/>

A. Library, Sample and development code

The RB-110 provides the Library, sample and development code. Please download from official website: <http://www.roboard.com>

Warranty

This product is warranted to be in good working order for a period of one year from the date of purchase. Should this product fail to be in good working order at any time during this period, we will, at our option, replace or repair it at no additional charge except as set forth in the following terms. This warranty does not apply to products damaged by misuse, modifications, accident or disaster. Vendor assumes no liability for any damages, lost profits, lost savings or any other incidental or consequential damage resulting from the use, misuse of, originality to use this product. Vendor will not be liable for any claim made by any other related party. Return authorization must be obtained from the vendor before returned merchandise will be accepted. Authorization can be obtained by calling or faxing the vendor and requesting a Return Merchandise Authorization (RMA) number. Returned goods should always be accompanied by a clear problem description.
